

## News May 2011

To meet the strong growing China market we are happy to cooperate with Newtronics Technology and Engineering in Shanghai. With this second Steamloc address in China we will ensure sufficient service for our clients, also in the south area of China.

Mr. Zhu Zhenghua, Director of Newtronics Technology and Engineering said our cooperation will open several other market segments, that can be taken care of by his team.

Newtronics is based in Shanghai with a sales network mainly covering the south of China. This gives us the opportunity to have a Steamloc knowledge point near our valued clients in this area.
